As experts in the field, we take great pride in carrying forward a legacy of 90 years of knowledge and expertise. At present, we stand as the sole weaving mill specialized in wool in both Belgium and Europe, firmly established within the industry. Our design team is dedicated to translating the latest trends into the creations of tomorrow, infusing traditional techniques with a contemporary flair. Whether it's Jacquard, Brussels weave, Wilton weave, or high-pile textures, all our carpets exemplify Flemish craftsmanship with a modern interpretation, maintaining the delicate balance between staying current and enduringly timeless in design.

SUSTAINABLE DESIGN

DRIVEN BY SUSTAINABILITY. This is reflected not only in our search for high-quality environmentally friendly materials, ranging from natural fibers such as pure wool to high-quality recycled yarns. Our vision also extends to the production process. Solar panels on the roof provide OSTA with energy and the production residues are recycled to the maximum extent possible. Our rugs are also low-maintenance and have a long lifespan. So sustainable in every sense of the word.

GEDREVEN DOOR DUURZAAMHEID. Dit komt niet alleen tot uiting in onze zoektocht naar hoogwaardige milieuvriendelijke materialen, variërend van natuurlijke vezels zoals zuivere wol tot hoogwaardige gerecyclede garens. Onze visie wordt ook doorgetrokken naar het productieproces. Zonnepanelen op het dak voorzien OSTA van energie en de productieresten worden maximaal gerecycleerd. Onze vloerkleden zijn bovendien onderhoudsvriendelijk en hebben een lange levensduur. Duurzaam dus in elke betekenis van het woord.

LA DURABILITÉ COMME MOTEUR. Cela se reflète non seulement dans notre recherche de matériaux écologiques de haute qualité, allant des fibres naturelles telles que la laine pure aux fils recyclés de haute qualité. Notre vision s'étend également au processus de production. Des panneaux solaires installés sur le toit alimentent OSTA en énergie et les résidus de production sont recyclés dans toute la mesure du possible. En outre, nos tapis ne nécessitent que peu d'entretien et sont durables. Ils sont donc durables dans tous les sens du terme.

ANGETRIEBEN VON NACHHALTIGKEIT. Dies spiegelt sich nicht nur in unserer Suche nach hochwertigen umweltfreundlichen Materialien wider, die von Naturfasern wie reiner Wolle bis hin zu hochwertigen recycelten Garnen reichen. Unsere Vision erstreckt sich auch auf den Produktionsprozess. Sonnenkollektoren auf dem Dach versorgen OSTA mit Energie, und die Produktionsrückstände werden so weit wie möglich recycelt. Unsere Teppiche sind außerdem pflegeleicht und haben eine lange Lebensdauer. Nachhaltig also im wahrsten Sinne des Wortes.
